## Ready To Climb?

Once your group has arrived and all participants have completed a Digital Waiver, our instructors will get everyone fitted into their safety harnesses and guide the group through a lesson in using our climbing facilities.

Once the instructor deems the participants of the group proficient and confident enough to safely use our climbing systems, they will then be allowed to climb at their leisure.

# Safety Comes First

While we encourage a relaxed and fun environment, there are a few rules that must be followed to make your climbing experience safe and enjoyable.
